ABOUT ME

I am a third year student at the University of the West of Scotland. I study Computer Games Development with experience in Unity(C#) and Unreal Engine 4/5 (C++ & Blueprint). I have an appreciation of efficient programming, tidy code and a love for making my ideas a reality and would love to guide others to know that same joy. I studied programming with Scratch in my years in education and found it to be a very educational tool to help those who are new to programming, learn the basics.

HOBBIES

I love to make video games in my spare time, it is a great way to relieve stress. I also practise Tae-kwon Do, this is also a good way keep fit, especially when I spend long days at a computer; it is also a good way to meet new people and socialise.
I spend a lot of time helping out my fellow classmates with issues, problem solving is something that has always felt therapeutic to me.

As a part-time hobby, I build computers for my friends and family. The technology has always fascinated me.

🎓 EDUCATION

📅 09/2016 - 06/2017
📍 New College Lanarkshire
ABB

SWAP STEM

📅 09/2019 - 06/2020
📍 New College Lanarkshire
Grade C

HNC Computing

📅 09/2020 - 06/2021
📍 City of Glasgow College
Grade A

HND Computing Science

📅 09/2021 - 06/2023
📍 University of the West of Scotland
Projected Grade A

BSc Computer Game Design (Honours)
